FOODIE

Discover • Order • Track • Enjoy

A smart food delivery experience connecting
customers, restaurants and delivery partners.

UI / UX DESIGN PRESENTATION

Good Food. Easy Ordering. Happy Customers.

Introduction to FOODIE

A simple, convenient and reliable way to enjoy favourite meals.

FOODIE is a food delivery app designed to make ordering meals effortless. Users can explore nearby restaurants, compare dishes, place secure orders and follow delivery progress in one place.

Discover

Explore cuisines, restaurants and popular dishes.

Order

Customize meals and check out in a few steps.

Enjoy

Track the order and receive it at the doorstep.

Problem Statement

Common challenges in the traditional food-ordering experience.

Time-consuming search

Customers spend time browsing multiple menus and comparing prices or delivery times.

Unclear order status

Limited updates can leave customers unsure whether an order is accepted, prepared or on the way.

Disconnected experience

Restaurants and delivery partners need clear order details and coordination to avoid delays.

The goal: reduce friction, improve communication and make every order easier to manage.

Proposed Solution

One connected platform for the complete food-delivery journey.

Smart discovery

Personalized recommendations, cuisine filters, ratings and clear menu information.

Smooth ordering

Easy cart management, item customization, transparent pricing and secure checkout.

Live delivery updates

Order status, delivery-partner details and estimated arrival time in one view.

FOODIE brings the right information together so each person knows what to do next.

Target Users

FOODIE supports three key user groups with focused experiences.

Customers

- Find nearby restaurants
- Browse menus and offers
- Place and pay for orders
- Track delivery and rate meals

Restaurants

- Manage menus and prices
- Receive incoming orders
- Update preparation status
- View order history

Delivery Partners

- Accept delivery tasks
- View pickup and drop-off details
- Navigate to destinations
- Update delivery progress

App Navigation

A predictable structure helps users reach important features quickly.

HOME

Discover food

SEARCH

Find restaurants

ORDERS

Track current orders

FAVOURITES

Saved dishes

PROFILE

Account & settings

Bottom navigation keeps the most-used destinations visible throughout the app.

Main UI Screens – Home, Menu, Cart

Three core screens designed around clarity and quick decisions.

FOODIE

HOME

Search bar
Cuisine categories
Featured restaurants
Offers & recommendations

FOODIE

MENU

Restaurant details
Dish photos & prices
Ratings and descriptions
Add-to-cart controls

FOODIE

CART

Selected items
Quantity controls
Price breakdown
Checkout button

User Journey – Discover to Delivery

A guided flow with clear feedback at every stage.

Typography

Use a clean sans-serif font with strong, readable headings.

UI components

Consistent buttons, cards, icons, spacing and rounded corners.

UX Principles

Design decisions that make the app easy to learn and comfortable to use.

Simplicity

Keep screens focused and avoid unnecessary steps.

Consistency

Use familiar layouts, labels and visual patterns.

Feedback

Confirm actions and communicate order status clearly.

Accessibility

Use readable text, strong contrast and clear touch targets.

User control

Allow users to edit items, review costs and manage preferences.

Error prevention

Validate details and explain how to fix mistakes.

Trust, Payments & Delivery

Build confidence with transparent information and reliable updates.

Trust & safety

Restaurant ratings and reviews
Clear item descriptions
Order confirmation
Support for order issues

Secure payments

Multiple payment options
Transparent taxes and fees
Order total before payment
Payment confirmation

Reliable delivery

Estimated arrival time
Delivery-partner details
Live status updates
Proof of delivery

A dependable experience is created through transparency at every touchpoint.

CONCLUSION

FOODIE makes food ordering feel effortless.

By connecting customers, restaurants and delivery partners through a simple interface, FOODIE aims to make every order convenient, transparent and reliable.

THANK YOU!
